

## Nieuw Haags Peil van 28 februari 2005

Groep Wilders blijft steeds verder wegzakken. Nu is deze groep op het niveau dat het eind oktober had bereikt kort voor de moord op Van Gogh. Geleidelijk is de positie van de VVD wat aan het verbeteren. Inmiddels staat deze partij 3 zetels boven het dieptepunt van ruim drie maanden geleden.

### Electorele positie van partijen

Door deze week te vergelijken met de scores van drie maanden geleden is ook goed te zien wat er sindsdien veranderd is. Met name het aandeel kiezers dat aangeeft Groep Wilders een kans te geven is duidelijk naar beneden gegaan. Het CDA is in die periode het sterkst gestegen.

## Vertrouwen in politiek en politici

Het vertrouwen in de politiek is al weer enkele weken lang iets hoger dan het op haar dieptepunt is geweest. Met name onder de CDA-kiezers begint het vertrouwen wat terug te komen.

Het vertrouwen in de belangrijkste politici is wederom weinig veranderd ten opzichte van de vorige week. Gemiddeld zien we wel wat stijgingen over de hele linie. Verhagen en Van Aartsen houden elkaar inmiddels in evenwicht op een niveau dat maar iets boven de 4 ligt.
